OBED UR RAHMAN

9342600959 | obedurrahman984977@gmail.com | United States

DATA SCIENTIST | MACHINE LEARNING | FORECASTING & ANALYTICS

PROFESSIONAL SUMMARY

Data Scientist with 4+ years of experience applying machine learning, statistical analysis, and data engineering across retail and financial services. Background includes demand forecasting, inventory and customer analytics, pricing-related analysis, credit-risk modeling, feature engineering, model validation, and business reporting. Experienced with Python, SQL, Spark, and BI tools, with a focus on translating complex data into practical insights for business and technical stakeholders.

TECHNICAL SKILLS

Programming & Querying: Python, SQL, R, Scala, Java
Machine Learning & Statistics: Predictive modeling, classification, regression, clustering, time series forecasting, feature engineering, hypothesis testing, model evaluation, cross-validation
Business & Risk Analytics: Retail analytics, customer behavior, demand forecasting, inventory optimization, pricing analytics, credit risk, consumer lending, roll-rate, vintage and survival analysis
Data Engineering & Platforms: Apache Spark, PySpark, Databricks, Informatica PowerCenter, ETL/ELT, PostgreSQL, MySQL
Libraries & BI: pandas, NumPy, scikit-learn, XGBoost, TensorFlow, PyTorch, Tableau, Power BI
Development & MLOps: Git, GitHub, Docker, Kubernetes, MLflow, data quality, model monitoring

PROFESSIONAL EXPERIENCE

Walmart | Senior Data Scientist | Sep 2025 – Present
• Develop predictive analytics and machine-learning solutions for retail use cases including demand forecasting, inventory optimization, customer behavior, product recommendations, and pricing analysis.
• Prepare, transform, and analyze large datasets with Python, SQL, pandas, NumPy, and Spark/Databricks; perform exploratory analysis and build features from sales, product, customer, and inventory data.
• Apply statistical analysis and model-evaluation techniques to assess predictive performance, identify trends, and communicate findings to business stakeholders.
• Collaborate with technical and business partners on analytical workflows, model development, and monitoring to support data-informed retail decisions.

MUFG | Data Scientist | Aug 2022 – Jul 2024
• Applied statistical analysis and machine learning to financial-services problems involving credit risk, consumer lending, and portfolio analytics.
• Prepared and integrated datasets using Python, SQL, Apache Spark, PostgreSQL, and Informatica PowerCenter; supported feature engineering, model development, validation, and reproducible data workflows.
• Used roll-rate, vintage, and survival-analysis techniques to examine portfolio behavior, investigate anomalies, and identify risk trends.
• Developed Tableau reporting with data extracts, scheduled refreshes, and KPI validation; worked with business analysts, engineers, QA, and project teams to deliver reliable insights.

IKEA | Data Scientist | Mar 2021 – Jul 2022
• Used Python, SQL, pandas, NumPy, scikit-learn, and XGBoost to prepare business data and develop classification, regression, clustering, and forecasting models.
• Performed exploratory data analysis and data-quality checks to identify trends, missing values, duplicates, outliers, and inconsistencies in customer, sales, and operational datasets.
• Built SQL queries using joins, CTEs, subqueries, aggregations, and window functions to combine and analyze data for business questions.
• Created Tableau and Power BI dashboards to communicate KPIs, sales patterns, and customer insights; collaborated with business and technical teams to present findings.

UNIVERSITY EXPERIENCE

Teaching Assistant | Fairfield University
• Supported Python Programming, Fundamentals of Programming, and Design & Analysis of Algorithms through student guidance, coursework support, programming labs, and assignment review.

Graduate Assistant – International Studies Program | Fairfield University
• Supported program activities, student engagement, communications, and coordination with faculty and staff.

EDUCATION

Fairfield University, USA | M.S. in Data Science
Bachelor’s degree in Computer Science, India
